Operational guidelines

Approved components are being implemented through National and Regional Centers of Organic Farming. Details of operational methodologies for different components are as follows:

1. Financial support for establishment of organic input production units under Capital Investment Subsidy Scheme (CISS) through NABARD

- 1.1 Setting up of mechanized Fruit/Vegetable Market/Agro Waste Compost production unit (100 TPD/3000 TPA capacity)—Assistance upto 33% of financial outlay upto a ceiling of Rs.63.00 lakhs is provided as back ended subsidy scheme under National Project on Organic Farming through NABARD.
- 1.2 Setting up of State-of-art liquid/carrier based Bio-fertilizer/Biopesticide Production Units (50,000 litre per Annum/200 TPA Capacity) – Assistance upto 25% of financial outlay upto a ceiling of Rs.40.00 lakhs is provided as back ended subsidy scheme under National Project on Organic Farming through NABARD.

2. Development and implementation of quality control regime and technical support for organic and biological inputs –

Since 2006, National Centre of Organic Farming and its 8 Regional Centres are notified for quality testing laboratories under the FCO (1985). Authorized inspectors from State

Governments draw samples as per the requirement of FCO and send to NCOF/RCOFs for analysis. Reports of such samples are being provided to concerned State authorities for further necessary action.

NCOF and RCOFs carry out research on new organic and biological products to define their standards and testing protocols for inclusion into FCO (1985). To meet the regular requirement of mother culture strains of effective microorganisms for production of biofertilizers, more than 200 strains are being maintained at these centres. All these strains have been developed by NCOF/RCOF and are recommended for commercial production. Such strains are provided to the producers on demand at nominal cost of Rs. 20/- per slant.

3. Human Resource Development through trainings –

Different types of trainings, with different course contents are being arranged under NPOF through NCOF and RCOFs. These are:

3.1 Certificate Course on organic farming - 30 days

Support to Organic Input production units

To boost the production of organic inputs, under Capital Investment Subsidy Scheme (CISS) of NPOF financial assistance is being provided to various Central/ State Govt, Non Govt and private entrepreneurs @ 33% of total financial out lay (TFO) limited to Rs.63.00 lakh for setting up of fruit/vegetable market/agro waste compost production unit (100 TPD) capacity and 25% of TFO limited to Rs. 40.00 lakh for setting up of State of art liquid/carrier based bio-fertilizer/biopesticide production units (200 TPA Capacity). To Govt agencies funds are being sanctioned directly by DAC&FW and to private agencies the assistance is available as credit linked back ended subsidy through NABARD. The scheme is continuing since the year 2004-05. Under the scheme any agency, company or individual entrepreneur can directly submit the project proposal to any scheduled bank, obtain loan and set up production unit. It is the responsibility of the bank to avail subsidy and/or refinancing from NABARD.

2. Quality control of biofertilizers and Organic fertilizers –

With the inclusion of biofertilizers and organic fertilizers under Fertilizer Control Order (FCO), a regulatory mechanism has been introduced in the country w.e.f. March 2006. NCOF and its RCOFS have been declared as Notified Quality Control Analysis laboratories. Under the system samples are being drawn by the statutory authorities of State Agriculture Departments and submitted to NCOF or concerned RCOF for quality analysis.

Besides these, NCOF and RCOFs also undertake quality analysis of other inoculants and organic manures not covered in FCO for study purposes.

2.1. The details of biofertilizers and organic fertilizers samples analyzed in fulfillment of requirement under FCO during the year 2019-20 were as follows:

2.1.1 Biofertilisers - During year 2019-20, a total of **477** sample of different biofertilisers (including non FCO) were analyzed, out of which 43.61% samples were found sub-standard. The Centre wise detail of Quality testing is given in Table- 6.

2.1.2 Organic Manures: During the year 2019-20, total of **483** samples of organic manures (including non FCO) were tested out of this 44.93% samples were found sub standards. The Centre wise detail of Quality testing is given in Table- 7.

Annexure I

Status of Participatory Guarantee System –INDIA (PGS-INDIA) Organic certification system in India in the year 2019-20

Participatory Guarantee System (PGS)-INDIA organic certification system was launched in 2011 by Department of Agriculture and Cooperation & Farmers welfare, Ministry of Agriculture & Farmers welfare, Government of India and is an alternative to third party certification. The programme is implemented through National Centre of Organic Farming (NCOF), Ghaziabad and its nine Regional Centres (Ghaziabad (HQ), Bangalore, Nagpur, Jabalpur, Panchkula, Bhubaneswar, Imphal, Bihar & Gujrat). NCOF is secretariat of the PGS-INDIA System, and Director, NCOF as the Executive Secretary will play crucial role in implementation of all activities of PGS- INDIA programme as per the PGS guidelines. Participatory Guarantee System (PGS) is an organic quality assurance system that is locally relevant, emphasize the participation of farmers/producers, stakeholders, and consumers and operate outside the frame of third party certification. The process is very simple where group of farmers verify each other, document it and take collective decision on the organic status of individual producers in compliance of PGS standards. Collective guarantee of organic status decision is then submitted to Regional Council, which in turn on verification approves (or reject) the certification decision. Process/ production standards are the same as of NPOP. The PGS certification system is based on principles of participation, shared vision, trust, transparency, horizontality and networking. PGS is a locally applicable quality assurance system. There are two types of Logos are used under PGS-INDIA certification programme, at the beginning of organic cultivation and upto two years' farmers will be considered under conversion, and they certified with **PGS-INDIA GREEN** logo. After two year (three years for plantation crops) period of conversion upon satisfaction the farmers certified with **PGS-INDIA ORGANIC** logo, and the same will be used on packing material while marketing organic produce.

Regional Councils: The organization which are authorized under PGS-INDIA certification system to play role in registration of farmers, training, online documentation, inspection, residual analysis, soil sample analysis certification and marketing as per PGS-INDIA guidelines. At the beginning in the year 2011 implementation of PGS–INDIA certification system was started through twenty (20) authorized Non -Governmental organizations (NGOs) as Regional councils, and there was no financial support from the Government of India to operate PGS certification system. After three years' evaluation it has been found that the certification system is acceptable among the farmers and consumers and farmer friendly system. To promote organic farming and PGS-INDIA certification in larger scale Government of India supported financially through launch of Paramparagath Krishi VikasYojana (PKVY) in the year 2015.

In the year 2019-20 a total number of 282 regional councils are authorized to work under PGS- INDIA system from different States {ANDHRA PRADESH (1), ARUNACHAL PRADESH (3), BIHAR (1), CHHATTISGARH (26), DELHI (2), GUJARAT (6), HARYANA (10), HIMACHAL PRADESH (10), JAMMU AND KASHMIR (4), KARNATAKA (6), KERALA (17), MADHYA PRADESH (51), MAHARASHTRA(24), MIZORAM(1), NAGALAND(9), ODISHA(1), RAJASTHAN(33),SIKKIM (1), TAMIL NADU(36), TELANGANA(7), TRIPURA(8), UTTAR PRADESH (18), UTTARAKHAND (5), WEST BENGAL(2)

(Fig.1)}. It has been recorded continuous increase in the number of regional council from 20 to 282 regional councils from the year 2011 to 2019-20(Fig.2). The increase in participation of regional council under PGs system shows growing demand and acceptance of system among the different stakeholders of organic farming community.

Number of Farmers groups

and farmers: There are 10909 total number of local groups were active in the year 2019-20 under PGS-INDIA system. Among the total number of local groups 7518 were recorded in PKVY and 3391 on PKVY scheme farmers under PGS certification system (Fig.3). The number of farmers recorded is 274923 in the year 2019-20. Among the farmers registered, it has been observed highest number of farmers i.e.242233 were recorded in PKVY scheme and only 32690 non PKVY/non scheme farmers were recorded

(Fig.4).The numbers of farmer’s group and farmer’s registration was continuously increased under financially supported PKVY scheme. It shows the popularity and easy mode of acceptance of certification system among the farmers and also the positive results obtained on productions system through organic farming

and practices, and also rise in the demand of PGS certified products among the consumers is attracting more farmers to adopt organic farming for cultivation of crops.

Area under PGS-INDIA certification: The area under PGS-INDIA certification was recorded 174237.76 ha in India under PGS certification system. Among the total area covered under PGS India system it was recorded 147807.28ha under PKVY scheme and under non PKVY scheme it was recorded 26430.48ha. The increase in area under PKVY scheme was noticed. It was rapid increase in participation of farmers under PGS-INDIA certification system may be observed which will pay way to local organic market in a big way

Certificates issued under PGS-INDIA system: It was recorded a total number of 336283 and 114155 certificates under PGS-INDIA Green certificates and PGS organic certificates respectively (Fig.5). As many of farmers are under conversion period more number of PGS-INDIA green certificates were recorded and complete organic farmers have been recorded very less as indicated by number of organic certificate generation in the year 2019-20.

Online PGS-INDIA webportal (<http://pgsindia-ncof.gov.in>) : Even though there are large numbers of farmers involved in organic farming under PGS-INDIA certification, their information properly not documented and information about farmers and agencies working are visible all public domain which is a limiting factor for the expansion of organic marketing. In order establish information access to all domain of people Government of India launched PGS-INDIA online webportal (<http://pgsindia-ncof.gov.in>) on 15th July , 2015. All the details of farmer's / regional councils are available in this website, and all information is accessible to

public domain. The consumer product verification was also enabled in this webportal. Any public can track their products from where it has obtained and also details of producer/farmers who has grown the products on PGS-INDIA webportal.

Paramparagat Krishi Vikas Yojana (PKVY) scheme was launched by Ministry of Agriculture & Farmers welfare, Government of INDIA to promote organic farming and PG-INDIA certification system in large scale. The scheme is providing financial support for mobilization of farmers, PGS-INDIA certification, Adopting organic farming practices and Marketing of products through cluster mode of approach. The cluster chosen for Organic Farming shall be 50 acres in extent and in as contiguous a form as possible. In order to facilitate this, the ceiling of subsidy that a farmer is eligible shall be a maximum of one hectare and the total financial assistance eligible for a 50 acre cluster shall be a maximum of Rs. 10(Ten) lakhs for farmer members and Rs. 4.95 lakh for mobilization and PGS Certification in Phase –I and in Phase –II the revised PKVY guideline and components an amount of Rs 500lakh per 1000ha in plain was been supported. Among the total funds allotted for PGS Certification through Regional Councils/ Zonal council a Rs. 21.00 lakh per cluster of 1000 ha for three years was earmarked for promotion of PGS certification in PKVY scheme which boosted certification process. Formation of Gram Panchayath based Farmer Producer Organizations was encouraged or already existing FPOs will be promoted under the PKVY scheme

Annexure IV **Biofertilisers and Organic Inputs under FCO (1985)**

Status of Biofertilisers and Organic Fertilisers under FCO, 1985

In order to ensure availability of quality of fertilizers to the farmers, Government of India has declared fertilizer as an essential commodity under Essential Commodities Act, 1955 and enacted Fertilizer Control Order (FCO), 1985 to regulate the trade, price, quality and distribution of fertilizers in the country. The State Governments are the enforcement agencies and are adequately empowered to take appropriate administrative and legal action against those who indulge in production and sale of fertilizers which do not meet the specifications prescribed in the FCO, 1985.

Biofertilizers and Organic Fertiliser have been included in the FCO, 1985. Bio-fertilizers are included under Schedule-III Part-A of the FCO, 1985. Presently, *Rhizobium*, *Azotobacter*, *Azospirillum*, Phosphate Solubilizing Micro-organism (PSM), Potash Solubilizing Micro-organism, Zinc Solubilizing Micro-organism, and Mycorrhizal Bio-fertilizer, *Acetobacter*, consortia of microorganism are included. Organic fertilizers are specified in Schedule-IV Part-A of FCO, 1985. Presently, city waste compost, vermi-compost, organic manure, de-oiled castor cake and Phosphate rich Organic manure (PROM) manure are notified.
